Knot Push 55cm

SKU: G16-10

\$395.95

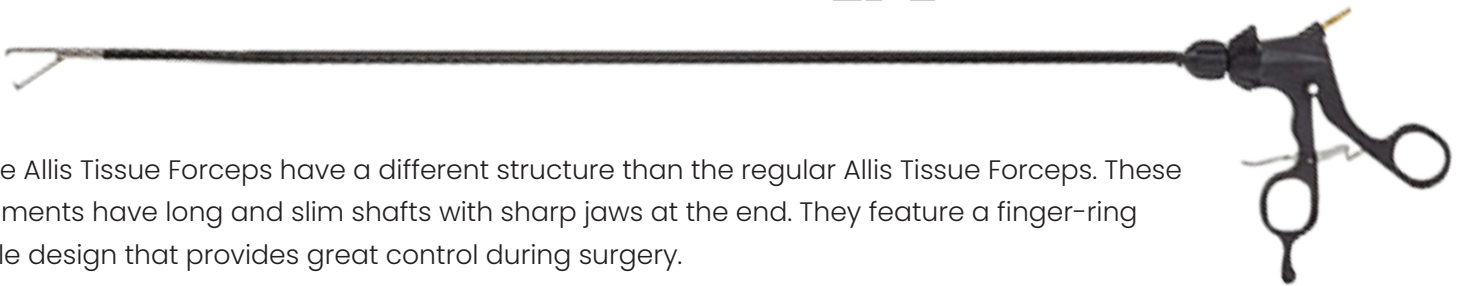

Knot Push has a 55cm length and is ideally designed for veterinary surgical procedures. The long length and slim design make it ideal for use in large animal confined surgical spaces.

Equine Allis Tissue Forceps 55cm, 1x2 Teeth

SKU: G16-17

\$834.00

Equine Allis Tissue Forceps have a different structure than the regular Allis Tissue Forceps. These instruments have long and slim shafts with sharp jaws at the end. They feature a finger-ring handle design that provides great control during surgery.

Needle Holder 55cm Tungsten Carbide

SKU: G16-23

\$1,074.00

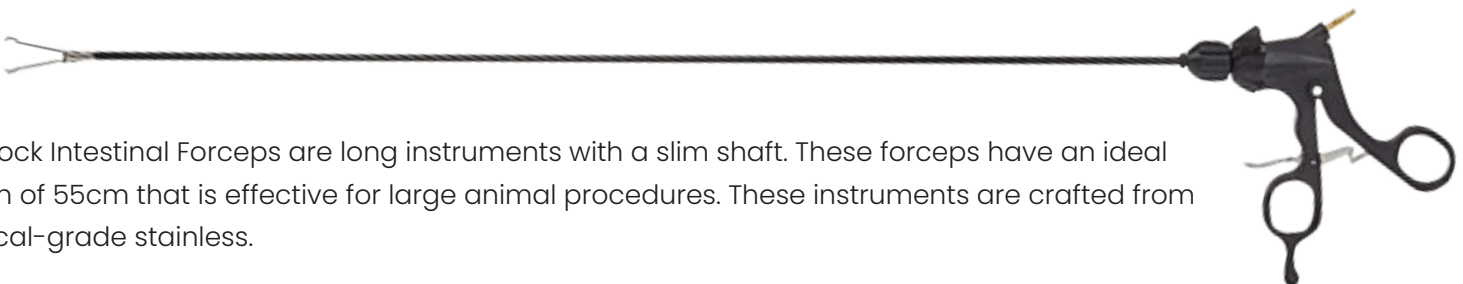

This unique needle holder has a 55cm length and tungsten carbide inserts in its jaws. These instruments are ideal for use in large animal procedures. They are constructed from fine surgical-grade stainless.

Equine Babcock Intestinal Forceps 55cm

SKU: G16-28

\$834.00

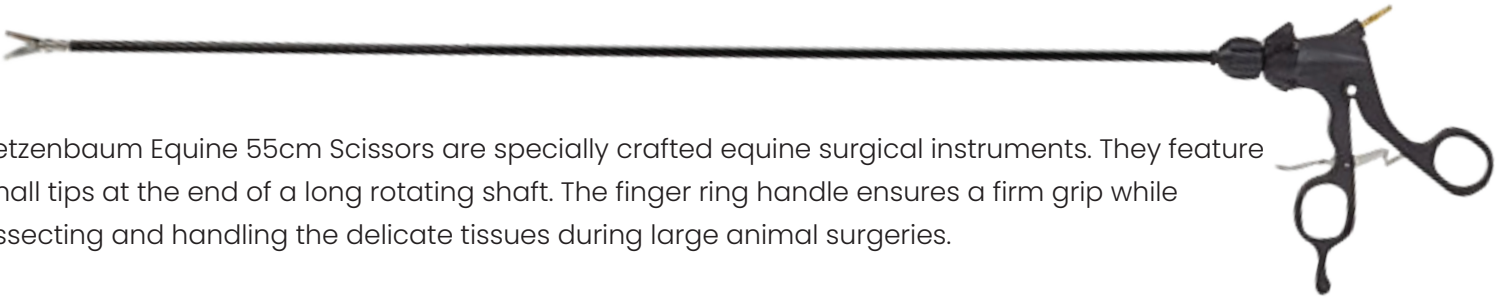

Babcock Intestinal Forceps are long instruments with a slim shaft. These forceps have an ideal length of 55cm that is effective for large animal procedures. These instruments are crafted from surgical-grade stainless.

Metzenbaum Equine 55cm Scissors

SKU: G16-189

\$834.00

Metzenbaum Equine 55cm Scissors are specially crafted equine surgical instruments. They feature small tips at the end of a long rotating shaft. The finger ring handle ensures a firm grip while dissecting and handling the delicate tissues during large animal surgeries.

Roaring Burr 41 1/2" Left/Right 104cm Virginia 104cm Long

VG70-372 L

VG70-372 R

\$269.95

\$269.95

\$249.95

Roaring Burr 41 1/2" Virginia 104cm Long is an equine special surgical instrument. The name Virginia comes from the resemblance of its working end to the Virginia state map. It helps veterinary practitioners during the resection of the sacculus and the treatment of equine laryngeal hemiplegia (roaring).

Roaring Burr 9" Left/Right Virginia Small

VG70-374 R

VG70-374 L

\$159.95

\$135.95

\$159.95

\$135.95

The Roaring Burr 9" Virginia Small is specially designed for equine ventriculostomies. It features raised edges on the working end, resembling the Virginia state map, and a palm-fit handle grip. We have used German stainless steel for this instrument, which makes it reusable and high-tensile.
